

City Pride School, Nigdi –Li-Jen Junior High School (Taiwan)

International Student Exchange

City Pride School successfully conducted an enriching international online student exchange programme with Li-Jen Junior High School, Taiwan, on Wednesday, 7 January 2026, via Google Meet. The exchange brought together students of Grade 7 from both schools and provided a meaningful platform for cultural understanding, academic collaboration, and global citizenship.

The 45-minute session was thoughtfully structured and smoothly executed, with 15 students from Li-Jen Junior High School and 12 students from City Pride School actively participating. The programme began with a big-group interaction, where students warmly greeted one another and shared their enthusiasm for connecting across borders.

The core focus of the exchange was Sustainable Development Goal 13 – Climate Action. Students from both countries delivered well-researched and visually engaging PowerPoint presentations covering government policies on climate change, eco-friendly initiatives undertaken by their schools, and individual actions adopted to protect the environment. The presentations demonstrated strong research skills, clarity of expression, and a commendable sense of environmental responsibility. A brief Q&A session further encouraged critical thinking and cross-cultural exchange of ideas.

The programme concluded with a cheerful group interaction, photographs, and warm goodbyes, leaving students inspired and motivated to act as responsible global citizens.

The exchange also received a heartfelt message of appreciation from Li-Jen Junior High School.

The City Pride School–Taiwan Exchange Programme was a truly memorable learning experience. The excellent presentations, teamwork, confidence, and enthusiasm of our Grade 7 students deserve special appreciation. Such international collaborations strongly reflect the school's commitment to holistic education, global awareness, and nurturing enlightened citizens of tomorrow.
